
Friedreich ataxia
Chimeric Antigen Receptor T−cells
ATP citrate lyase inhibition
Necrotizing enterocolitis
Gestational diabetes
Pulmonary arterial hypertension
Non−small cell lung carcinoma
Acute graft versus host disease
Anemia of chronic renal failure
Nitisinone
Myalgic encephalomeyelitis/chronic fatigue syndrome
High altitude exposure
Caffeine
Cold Temperature
Ischemic stroke
Kidney cancer
Lupus nephritis
X−linked adrenoleukodystrophy
Chronic progressive multiple sclerosis
FGFR2 inhibition
Coronary Artery Disease
Fragile X syndrome
Hyperglycemia
C10
Dental caries
Copper chelator
Glioblastoma
Bathocuproinedisulfonic acid
Intermittent Fasting
Retinitis pigmentosa
Lung adenocarcinoma
Sarcopenia
TDO2 perturbation
Hemp fiber supplementation
C11
Brown adipose tissue activity
Nasopharyngeal carcinoma
Hypertension, Pregnancy−Induced
C7
Gout
Asthma
Cigarette Smoking
Methylprednisolone
Cellular senescence
Esophagitis
Subarachnoid hemorrhage
Stress, Mechanical
Myasthenia gravis
Ferroptosis
Dry eye syndrome
C15
HIV infectious disease
Skin aging
PIK3CA mutation
Infertility
Osteoarthritis
Pesticide
Colorectal cancer
Keratoconjunctivitis sicca
Cirrhosis of liver
Psoriasis
Lung cancer
C4
Allergic rhinitis
Hepatic fibrosis
Aging
Alport syndrome
Chronic kidney disease
Metabolic syndrome
Breast cancer
Drug−induced liver injury
Hepatocellular carcinoma
Liver cancer
C5
Gemcitabine
Nontuberculous mycobacterial pulmonary infection
Ovarian endometriosis
Chronic obstructive pulmonary disease
Metabolic dysfunction−associated steatotic liver disease
Lipid droplet inhibitor
C3
Proliferative diabetic retinopathy
Alzheimer disease
Lactobacillus crispatus treatment
Ulcerative colitis
Osteoporosis
Drug resistance
Propofol
Fecal Microbiota Transplantation
Exercise
Autism spectrum disorder
Kidney stone
C9
Hepatitis B virus infection
Schisantherin A
Acute coronary syndrome
COVID−19
Sepsis
C1
Acute myeloid leukemia
Low birth weight
HK2 knockout
Renal cell carcinoma
Astaxanthin
Healthy Lifestyle
Urinary bladder cancer
Crohn's disease
Hand, foot and mouth disease
Environmental Exposure
C16
Traumatic brain injury
Parkinson disease
Fibroblast
Premature birth
Pregnancy
Obesity
BMA similarity
